

Ordering nTelos Services

To order Voice, Broadband or TV services, call 1-800-262-2200 and identify yourself as a Liberty Square resident. Please contact nTelos at least three weeks before you are planning to move to ensure your service is ready when you move in. If you currently live in Harrisonburg and plan to move your existing home phone number to your Liberty Square residence, do not call Verizon to disconnect your number. nTelos will take care of moving the number to your new residence. If you are new to the area or want a new number, contact your current provider to disconnect local telephone service at your current address. When establishing your nTelos services, we will conduct a simple credit check unless you have other nTelos services with us. To ease the ordering process, please take a moment and fill out the form below before you call nTelos.

Name _____

Current Address _____
