

## How to find, preview and watch Video on Demand in your TV Library.

It's easy to find and rent on-demand movies, TV shows, and more without leaving home. Rental costs are listed by the title. Many are free!

### Using Video On Demand.

Once you choose a video or program from the Video On Demand library, you can start, stop, and resume play any time during the period indicated on the rental screen.

If you subscribe to a premium movie package, many of its previously broadcast programs are available free on demand.

### Renting from Video On Demand.

- > Press **VIDEO ON DEMAND** (or press **MENU** then select *Video on demand*, then *Browse videos*, and press **OK**).
- > Videos are arranged by category. Use **right/left** arrows to choose *Current rentals*, *Movies*, *Free* or premium channels on-demand such as *TMC On Demand* or *MAX On Demand*. Press **OK**.
- > Use **up/down** arrows to scroll through the available videos or view a subcategory.
- > Select the video you want, then press **OK** to access *Program Info*, where you can watch a preview or rent a video.
- > Select **Rent**, and then press **OK**. The screen will ask you to press **OK** to confirm your purchase. The video begins playing immediately. To stop it and watch it later, press **STOP**, select *Done*, then press **OK**. Return to the *Current rentals* screen before the rental expires to watch your video.

Video On Demand is located on Channel 900 in the *GUIDE*. In addition to using the **VIDEO ON DEMAND** button on the remote, there are alternative ways to go to the Video On Demand menu:

- > While viewing a channel, key in the number 900 using the remote keypad; press **OK** twice.
- > Press **GUIDE**, scroll to Channel 900; then press **OK**.
- > Press **GUIDE**, key in the number 900 using the remote keypad; press **OK** twice.

## Featured Video On Demand.

In the *Video on demand* display under *Featured*, you can check to see what featured videos are available to you. *Spotlight*, *Special offers*, and *Last chance* movies, sports, and TV series are offered frequently and change regularly. For example, you'll have the option to rent all the videos in a featured package, or parts of the package individually. Access them just as you would regular rentals.

## Finding featured Video Bundles.

- > Press **VIDEO ON DEMAND** (or **MENU**, *Video on demand*, then **OK**).
- > On the *Video on demand* screen, use the **down arrow** to select *Featured*, and press **OK**. You'll see a listing of what's available. Offers change regularly, so stay tuned!
- > Use the **up/down arrows** to scroll through the available videos. Select the programming you want, and press **OK**. A *Program Info* screen appears where you can choose to watch a preview or rent a video.
- > Select *Rent*, and press **OK**.

## Paying for Video on Demand Rentals.

On your nTelos bill, each of your Video On Demand rentals will be listed individually by title with associated rental cost. You'll see them listed under usage charges on your bill.

## Pay Per View events on channel 400.

Order new special events each month on nTelos Video Pay Per View. Special events are individually priced and will be added to your nTelos bill.

- > Press **GUIDE** and go to Channel 400.
- > Select the program you want and follow the on-screen prompts.

Unlike Video On Demand, Pay Per View events must be watched at a scheduled time.

## Controlling who orders what.

If you want to limit who can order Video On Demand selections, you can set parental locking controls so that whoever rents Video On Demand videos has to enter a Personal Identification Number (PIN) that you create. You can also indicate the movie ratings you want to control so that viewers must enter a PIN to watch any rental video or current TV program with that rating or above. Learn how to create a PIN for parental locking and movie ratings on page 24.

## How long can I keep a rental?

The video is available for 24 hours, depending on the rental. The time is shown in your *Current rentals* screen found in the Video On Demand drop-down menu.
