

## Use these DVR buttons to control live TV and your recorded programs in new ways.

Because nTelos Video service has DVR capability, you can control live TV with your remote by clicking the same playback buttons you use to pause and rewind recorded programs. You can also replay the last 7 seconds (or fast-forward in short bursts through recorded programs).

- > Press **RECORD** while watching a program and the message *Recording* appears briefly on the screen; the **RECORDING** light on your receiver lights up and remains lit until recording ends automatically at the end of the program time slot. Or, press **STOP** to end recording at any time. To find an already recorded program, press the **RECORDED TV** button.
- > Press **PAUSE** to pause live TV for up to 90 minutes. (If you leave **PAUSE** on longer, the program will automatically begin playing again from the point where you paused it.)
- > Press **PLAY** to resume playing a program from the point where you paused it.
- > Press **REW** or **REPLAY** to rewind continuously or skip back in 7-second increments on live or recorded TV. Pressing **REW** once, twice, or three times increases rewind speeds.
- > Press **FWD** or **FF** to fast-forward through recorded programs or fast-forward continuously. Pressing **FF** once, twice, or three times increases fast-forward speeds.

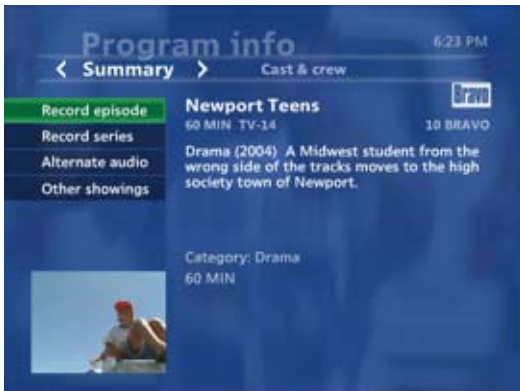

The progress bar at the bottom of your TV screen shows how far you can fast-forward or rewind and the point at which you will be watching live TV.

## DVR

## Quick Tips

## Schedule a program to record.

You can use the on-screen *Guide* to schedule a current or future program to record.

> First, press **GUIDE** then highlight the program you want to record and press **RECORD** once; a red dot appears to confirm recording is scheduled.

> Press **RECORD** twice to have the DVR record the series. (Press **RECORD** three times to cancel (recording) the red dot.)

> To record a program you've highlighted in the *Guide* to extend beyond the scheduled end time, press **INFO**, select *record episode* or *record series*, and press **OK**.

> In the *record* (or *record series*) screen, use **arrows** to select *change in stop recording*; select the amount of extra time you want, press **RECORD**, and click **OK**.

3 Press **RECORDED TV** to see a recorded program list and if the program is recording.

4 Press **EXIT** to return to the last channel you were watching.
